

Constellation: **Gemini (The Twins)**

Star Name: **Pollux**

Brightness (Magnitude): 1.15

Distance: 34 light-years

Absolute Magnitude: 1.1

Temperature: 4,500 K

Color: Orange

Type (Size): Giant

Spectral Class: K0 IIIb

Constellation: **Gemini (The Twins)**

Star Name: **Mu Geminorum (Tejat)**

Brightness (Magnitude): 2.87
(2.75-3.02) (Variable star)

Distance: 230 light-years

Absolute Magnitude: 1.4

Temperature: 3,650 K

Color: Red

Type (Size): Giant

Spectral Class: M3 IIIab

Constellation: **Gemini (The Twins)**

Star Name: **Alhena**

Brightness (Magnitude): 1.93

Distance: 105 light-years

Absolute Magnitude: -0.6

Temperature: 9,750 K

Color: White

Type (Size): Subgiant

Spectral Class: A0 IV

Constellation: **Gemini (The Twins)**

Star Name: **Castor**

Brightness (Magnitude): 1.58
(1.96/2.91) (Binary star)

Distance: 50 light-years

Absolute Magnitude: 0.58 (1.3/2.3)

Temperature: 10,300 K/8,850 K

Color: White/White

Type (Size): Main Sequence/
Main Sequence (Dwarf/Dwarf)

Spectral Class: A1 V/A2 V

Constellation: **Cassiopeia (The Queen)**

Star Name: **Schedar**

Brightness (Magnitude): 2.24

Distance: 229 light-years

Absolute Magnitude: -1.99

Temperature: 4,530 K

Color: Orange

Type (Size): Giant

Spectral Class: K0 IIIa

Constellation: **Cassiopeia (The Queen)**

Star Name: **Caph**

Brightness (Magnitude): 2.28

Distance: 47 light-years

Absolute Magnitude: 1.16

Temperature: 6,700 K

Color: Yellow-White

Type (Size): Giant

Spectral Class: F2 III-IV

Constellation: **Cygnus (The Swan)**

Star Name: **Sadr**

Brightness (Magnitude): 2.23

Distance: 1,300 light-years

Absolute Magnitude: -6.12

Temperature: 6,500 K

Color: Yellow-White

Type (Size): Supergiant

Spectral Class: F8 Ib

Constellation: **Cygnus (The Swan)**

Star Name: **Delta Cygni (Ruc)**

Brightness (Magnitude): 2.86

Distance: 171 light-years

Absolute Magnitude: -0.74

Temperature: 9,800 K

Color: Blue-White

Type (Size): Subgiant

Spectral Class: B9.5 IV

Constellation: **Scorpius (The Scorpion)**

Star Name: **Sargas**

Brightness (Magnitude): 1.86

Distance: 270 light-years

Absolute Magnitude: -2.7

Temperature: 7,200 K

Color: Yellow-White

Type (Size): Bright Giant

Spectral Class: F1 II

Constellation: **Scorpius (The Scorpion)**

Star Name: **Dschubba**

Brightness (Magnitude): 2.29
(Recently, variable, 1.6-2.0)

Distance: 400 light-years

Absolute Magnitude: -3.2

Temperature: 28,000 K

Color: Blue-White

Type (Size): Subgiant

Spectral Class: B0 IV

Constellation: **Orion (The Hunter)**

Star Name: **Bellatrix**

Brightness (Magnitude): 1.64

Distance: 240 light-years

Absolute Magnitude: -2.7

Temperature: 21,500 K

Color: Blue-White

Type (Size): Giant

Spectral Class: B2 III

Constellation: **Orion (The Hunter)**

Star Name: **Iota Orionis (Hatysa)**

Brightness (Magnitude): 2.77

(Binary star)

Distance: 1,300 light-years

Absolute Magnitude: -5.3

Temperature: 31,500 K

Color: Blue/Blue

Type (Size): Giant/Giant

Spectral Class: O9 III/B1 III
