- Are there any resources at U of A?
My Personal History of ADHD Diagnosis

• **Struggle with problem-solving**
  “What do I do first? How long should it take? What about that other class? Oh, I forgot about my laundry. Wait, where should I start this project? What was I supposed to do?”

• **Reading or listening to a lecture is not enough**

• **Struggle when the class is moving fast, especially when discussing detail-oriented subjects**

• **Struggle to organize ideas well enough to communicate them to others**

• **Motivation is incredibly hard, even for the simplest tasks**

• **Frequently day-dreaming**

• ** Forgetfulness**

• **Trouble sleeping(oversleeping)**
My Personal History of ADHD Diagnosis

• Low self-esteem

• Difficulty managing stress

• Disorganization

“My room is cluttered. Unread magazines are piled up, my car is filled with junk and debris. Spending hundreds of dollars each month on storage units, because I can’t decide to throw away long-unused items. Because decision-making is difficult for me. Time rushes and I don’t notice, leading me to miss some events and arrive late to many others. When I make an effort to get organized, my clutter seems to magically reappear shortly after it has been cleared away.”

“ADD-friendly ways to organize your life” by Judith Kolberg and Kathleen Nadeau.
What is ADHD?

Attention-Deficit Hyperactivity Disorder (ADHD)

• Makes careless mistakes and lacks attention to details
• Has difficulty paying attention to tasks
• Seems to not listen when spoken to directly
• Fails to follow through instructions or duties in the workplace
• Has difficulty organizing tasks and activities
• Easily distracted by other things, including unrelated thoughts
• Forgetful in daily activities
• Leaves seat when remaining seated is expected

Why is important to know about ADHD?

- Many people with ADHD also have an anxiety disorder
- They are far more likely to struggle with depression
- It’s really interfering with our lives

How do I know that I have?

ADHD Resources at U of A
Counseling & Psych Services (CAPS)
https://caps.arizona.edu/

- Individual Counseling
- Psychodiagnostic Evaluation
- Attention Management Program (AMP)
- Medication Management
Disability Resource Center (DRC)

https://drc.arizona.edu/
