

Weather Limits

1. Monitor campus weather conditions by watching the UA Department of Atmospheric Sciences and NOAA webpages.
2. Close the mirror covers and dome if the humidity gets to 90%.
3. Keep an eye on wind speed! Close if 30MPH or higher. Use good judgement.
4. Do not open if smokey or dusty conditions exist.
5. Put the system in [Lightning Shutdown](#) if thunderstorms are predicted. Check forecast before leaving the dome!
