
Prepared by Lori Stiles, Office of Public Information, University of Arizona, with updates by CJC.

1983: Site testing begins on Mount Graham

1985: March - Spin-casting of 1.8-meter primary mirror in Steward Observatory Mirror Lab; The Vatican Observatory and Steward Observatory agree to build a telescope with the 1.8-meter primary mirror

1986: September - Incorporation of Vatican Observatory Foundation (nonprofit); November - Design of telescope begins

1987: March - First fundraising campaign begins

1988: July - Contract for telescope mount with L?F Industries; November - Arizona-Idaho Conservation Act authorizes construction on Mount Graham

1989: January - Second fundraising campaign begins; February - Design of astrophysics facility begins; May - Contract for secondary mirror with Space Optics Research Labs.

1990: February - Telescope mount delivered to test facility near Tucson; October - Contract with T.L.Roof signed, and site clearing for facility building on Mount Graham begins

1991: June - Weather-delayed start of concrete foundation work on Mount Graham; November - Steward Observatory completes polishing of the primary mirror

1992: April - Construction resumes on Mount Graham; May - Polishing of secondary mirror completed; October - Telescope mount and dome installed on Mount Graham

1993: February - Substantial completion of facility building; March - Installation of scientific equipment; September - First light with primary mirror in place, and beginning of commissioning phase; September 18 - VATT dedication

1994: July - Second light with secondary mirror in place

1995: January - Scientific observations begin

1999: March - Kresge Science Initiative Grant work begins, with substantial completion a year later, bringing VATT close to planned optical and mechanical performance and reliability

2002: December - Installation of [CorMASS](#), a low resolution, near infrared, slit spectrograph

2003: September 18 - Tenth Anniversary! See [Fall 2003 Newsletter](#).
